## Autunno • Inverno

La Collezione Autunno Inverno 2019 di Stamperia è molto ricca. Sono stati sviluppati stili e grafiche diverse e realizzati nei coordinati per offrire agli utilizzatori il materiale necessario per creare progetti unici. I grafici hanno lavorato in sinergia fra loro e anche con gli insegnanti e creativi Stamperia che con le loro idee originali e la loro personale filosofia hanno contribuito ad ampliare l'offerta. I loro stili sono ben distinti e si completano molto bene uno con l'altro.

I nostri creativi sono molto dinamici, oltre a concepire le loro collezioni e realizzare fantastici progetti, hanno sempre la valigia pronta per raggiungere i loro fans ed organizzare corsi in tutto il mondo:

### Cosmos by Cristina Radovan

Cristina è una giovane creativa di Barcelona, molto conosciuta in patria e che presto conquisterà il pubblico di tutto il mondo con la sua originalità. Specializzata in Mixed Media e Scrapbooking, Cristina Radovan è un'artista eclettica che non ama ripetersi ma ogni volta sperimenta e inventa.

La Collezione Cosmos si ispira alla Natura, alle sue splendide forme e al significato profondo che ogni soggetto scelto da Cristina rappresenta: il lupo, il cervo, l'uccellino, il gufo e la rana e anche la Luna, il legno, il cielo e l'acqua. Molte sono le frasi che ci accompagnano in questo percorso, tutte positive ed incoraggianti per attingere a nuove energie.

È la relazione tra la nostra vita e l'ambiente che interessa Cristina e che vuole sottolineare con la sua collezione. I prodotti sono stati scelti con cura per completarsi e coordinarsi ed offrire una scelta di tecniche che ben si combinano tra loro: carte, stamps, wooden shapes.

## Tatiana's Fairies

Tatiana è una creativa italiana che da anni è in Stamperia come insegnante, ha una grande esperienza in tutte le tecniche ma predilige la pittura, in ogni sua forma. Con la sua sensibilità e la sua tecnica Tatiana ha sviluppato un mondo di fatine, colorate, questa è la sua prima collezione e poi ce ne saranno altre. Tatiana arricchisce le fate di fiori, bellissimi, sbalzati come sculture ad altorilievo, li realizza con un Mix che ottiene mescolando la Pasta Scultura con la Soft Clay. Tatiana ci svela i suoi trucchi.

## Le Tele di Monica

Monica Paruta è uno dei volti più conosciuti di Stamperia, instancabile viaggiatrice e artista di talento oltre che insegnante, sempre pronta a prendere i bagagli e volare verso la sua prossima avventura, che si tratti di Francia, Giappone, Italia o dovunque la sua arte la porti. La sua iconica linea, le Tele di Monica, è stata progettata per facilitare la creazione di disegni con eleganti contorni da decorare in libertà.

## Marisa Bernal

Lo Scrapbooking è una tecnica elegante e sofisticata e richiede materiali altrettanto raffinati. Questa esigenza è pienamente soddisfatta da queste bellissime selezioni di carte dalle linee pulite e disegni semplici e armonici.

Winter Star e Pink Soul sono il frutto di una stretta collaborazione tra Stamperia e Marisa Bernal, una designer spagnola di grande talento, che sicuramente continuerà a creare bellissimi disegni di grande ispirazione.

### Cosmos by Cristina Radovan

Cristina is a young creative from Barcelona, very known in her country and that soon will conquer the public of the whole world with the her originality. Specialized in Mixed Media and Scrapbooking, Cristina Radovan is an eclectic artist that does not repeat herself but each time experiments and invents. The Cosmos collection is inspired by nature, its wonderful forms and the deep meaning that each subject chosen by Cristina represents: the wolf, the deer, the bird, the owl and the frog as well as the moon, the wood, the sky and the water. There are many phrases that walk us through this path, all positive and encouraging for drawing new energy. It is the relationship between our life and the environment that interested Cristina and that she wants to highlight with her collection. The products have been chosen with care to complement, coordinate and offer a choice of techniques that combines well among each other: cards, stamps, stencils, wooden shapes.

## Tatiana's Fairies

**ITA** Se mai fossero veramente esistiti, gli alchimisti avrebbero usato queste misteriose ampolle per immagazzinare i loro strani ed enigmatici elementi. E cosa sono veramente gli alchimisti, se non gli hobbisti di un altro tempo? Per questo motivo, la gamma Stamperia si sta espandendo ancora una volta, offrendo queste piccole bottiglie con tappi di sughero per tutti i tipi di decorazioni.
